Validation Opinion Letter: Easylin

Dear Mr Chatellier,

Carbon Trust Assurance Limited ("**The Company**") has validated and formed an opinion under its guidelines (v1.6) that:

"In the Carbon Trust's opinion, based on 3rd party *in vivo* testing against valid baselines (controls), correct use of Easylin can reduce methane emissions in ruminant animals."

Notes:

- This opinion is based on academic references, published scientific papers and field reports. The methane reduction data submitted is from *in vivo* (animal tests) rather than *in vitro* (laboratory) studies. The studies have been carried out at research facilities across Europe using internationally recognised methodology.

The Company has provided a limited assurance validation regarding the above claim following office-based review of documentation, academic references, and experimental results as provided by You and in the public domain. We have found no evidence to suggest this claim is misleading. The Company is not a regulatory authority and does not purport to authorise or approve this product in regards to any applicable legislative or regulatory requirements.

Applicable Period of Claims

This validation is valid for a period of 24 months from 30 June 2021 (the 'effective date') until 29 June 2023, subject to the provisions in this Letter.

Communications

You are permitted to communicate our opinion as set out below:

“The Carbon Trust has provided a validation opinion concluding that correct use of Easylin can reduce methane emissions in ruminant animals.”

“In the Carbon Trust’s opinion, based on 3rd party *in vivo* testing against valid baselines (controls), correct use of Easylin can reduce methane emissions in ruminant animals.”

Any communications, other than those listed above, shall be submitted to the Company for prior approval and may be documented in an Annex of this Letter at the Company’s discretion.

When privately communicating this validation with potential clients and consumers, The Company strongly recommend Valorex to provide all available detail and context for the opinion formed.

Hugh Jones, Managing Director
